Backend Node.js, NestJS, Express, Python (FastAPI, Django), Keycloak, OAuth 2.0 / SSO

Data & Observability PostgreSQL, Redis, ClickHouse, Kafka, OpenTelemetry, Grafana

AI & ML LLMs (Claude, GPT), RAG, LangChain, Transformers

Experience

Team Lead, Hubora Aug 2026 – Present

Leading the Workspace and Collaboration area of an ambitious startup building a broad business platform spanning workspace collaboration, ERP, CRM, and related tools.

- Leading development and coordination for workspace and collaboration features.
- Contributing to product architecture and implementation across an integrated platform.

Full-Stack Developer, Centific (Microsoft Vendor) Feb 2026 – Aug 2026

Contributed to AI-driven product features and next-generation search and interface experiences.

- Built React-based interfaces for AI systems
- Implemented advanced search experiences with query-based logic (KQL-style)
- Designed dashboards for multi-model interaction and data visualization

Full-Stack Developer, Glossa Jul 2025 – Dec 2025

Full-time remote role at an AI startup focused on software migration and requirement generation.

- Developed features using Next.js and Node.js / Express
- Implemented authentication, SSO, and access control systems
- Built onboarding, billing, and core platform functionality

Full-Stack Developer, Tourism Software Solution Apr 2024 – Jan 2025

- Built and maintained Angular admin panels
- Developed backend email automation using Node.js
- Implemented AI assistant using RAG architecture

Full-Stack Developer, CentarNit Jan 2023 – May 2023

- Developed CMS using React and MUI
- Built REST APIs with FastAPI

Projects

- **GarageSpotter** — Node.js, React, PostgreSQL. Platform for locating parking and EV charging.
- **TheHive** — Laravel, React. Service platform for beekeepers.
- **Golem's Path** — Flask, React. RAG-based system with chatbot interface.

Awards & Research

- **1st Place, Hackathon** — State University of Novi Pazar, Serbia (Dec 2024). Won among 17 teams from universities across Serbia by building an app for primary schools. news
- **1st Place, Hackathon** — International University of Novi Pazar, Serbia (Apr 2025). Built Fashionly and was invited to pitch it at Route2Launch (FON, Belgrade). news
- **Conference Paper, CPMMI 2026** — "Can Algorithms Understand Emotions? A Comparative Evaluation of Machine Learning Approaches on the GoEmotions Dataset." Presented at the 9th International Conference on Contemporary Problems of Mathematics, Mechanics and Informatics (Sep 2026)

Education

State University of Novi Pazar, Serbia — BSc in Software Engineering (Graduated Oct 2026)
